EDUCATION

Peking University (PKU) 09/2020-01/2026

Academy for Advanced Interdisciplinary Studies

Ph.D. candidate (Weiming Scholar) in Integrative Life Sciences, supervised by Prof. Fang Fang

Peking University (PKU) 09/2016-07/2020

School of Psychological and Cognitive Sciences

B.S. (Honored Graduate) in Psychology, supervised by Prof. Fang Fang

University of California, Los Angeles (UCLA) 07/2019-09/2019

Cross-disciplinary Scholars in Science and Technology Program, supervised by Prof. Ladan Shams

RESEARCH HIGHLIGHTS

- ◆ Keywords: vision, perceptual learning, plasticity, cognition enhancement, consolidation, attention
- ◆ Anodal tDCS over visual cortex enhances offline consolidation of visual perceptual learning — revealing a rare causal leverage over unconscious learning processes. (tDCS, psychophysics)
- ◆ Transcranial alpha entrainment as a powerful frequency-specific approach to sculpt the time course of visual learning. (tACS, MEG, electrical field simulation)
- ◆ Photic neuromodulation of offline visual learning via frequency-tuned stimulation linked to LTP-like plasticity. (fMRI, sMRI (VBM), MRS, EEG, computational modeling (RSNN))
- ◆ The right superior parietal lobule as a causal hub translating objective load into subjective effort in visual tracking. (fMRI (PPI, MVPA, multilevel mediation), HD-tDCS, electrical field simulation, pupillometry)

RESEARCH INTEREST

How deceptively simple interventions like visual stimulation modulate neural circuit function and structure; leveraging a broad repertoire of neuroimaging, electrophysiological, stimulation, behavioral, and computational tools to uncover underlying mechanisms and inform brain-computer interfaces and the targeted design of stimuli to enhance cognition.

SKILLS

- ◆ Experimental Techniques:
 - Neuroimaging: fMRI, sMRI (VBM), MRS (MEGA-PRESS and sLASER);
 - Electrophysiology: EEG, MEG;
 - Brain stimulation and modeling: tES, HD-tES, electrical field simulation;
 - Computational modeling;
 - Psychophysics and Pupillometry;
- ◆ Coding: MATLAB, Python, R, C/C++, bash.
- ◆ Software: SPM, Freesurfer, BrainNetViewer, SPSS, SimNibs, etc.
- ◆ Computational Approaches: MVPA, RSA, DCM, PPI, Neural Network Modeling.

He, Q. #, **Yang, X.-Y.** #, Zhu, X. #, Fang, F.* The effect of tDCS on wakeful consolidation is mediated by the sleep-wake cycle.

Bi, K. #, **Yang, X.-Y.** #, Chen, L., Fang, F.* A comprehensive investigation on HD-tES' effect on visual search in static scenes and underlying mechanisms. (# Equal contribution)

CONFERENCE

Annual Meeting of the Vision Science Society (**VSS 2025**). “Hebbian plasticity in a recurrent network model explains enhanced wakeful consolidation via repetitive sensory stimulation”

Annual Meeting of the Organization of Human Brain Mapping (**OHBM 2024**). “10-Hz Flicker Boosts Early Consolidation of Visual Perceptual Learning via Augmented Glx/GABA Ratio.”

Annual Meeting of the Vision Science Society (**VSS 2024**). “LTP-like activity induced by post-training rhythmic flicker consolidates visual perceptual learning.”

Annual Meeting of the Vision Science Society (**VSS 2021**). “The role of anodal transcranial direct current stimulation (tDCS) in the consolidation of visual perceptual learning is mediated by the wake/sleep cycle.”

ACADEMIC SERVICES

◆ Peer Review

Independent Reviewer: The 3rd International Conference on Computer Technology and Information Science (CTIS2025)

Co-Reviewer (with Prof. Fang Fang): Nature Human Behaviour, Nature Communications, Current Biology, Eneuro, Medical Review

◆ Teaching Experience

Teaching Assistant: [General Psychology] [Sensation and Perception] [Frontiers in Psychological Science]
Peking University, 2021-2024

HONORS

Merit Student, PKU	2024, 2023, 2019
China Industrial Bank Scholarship	2024
The Presidential Scholarship, Peking University (considered the highest honor awarded by PKU to Ph.D. students)	2023
Grad Student Presentation Award of the Annual Conference of the Psychological Committee of China	2022
Weiming Scholar	2020
Honored Graduate, PKU	2020
Departmental Scholarship, School of Psychological and Cognitive Sciences, PKU	2020
University Scholarship, PKU	2019
Education Abroad Program Scholarship, PKU	2019
Scientific Research Excellence Award, PKU	2018
May 4th Scholarship, PKU (considered the highest honor awarded by PKU)	2018
